

8 REASONS WHY YOUR CYCLE SHOULD BE

Indian

MORE AND MORE MOTORCYCLE ENTHUSIASTS ARE RECOMMENDING INDIAN CYCLES.

1. EASIER TO HANDLE Indians are the lightest cycles in their classes. As much as 30 pounds lighter than comparable models.

2. EASIER TO CONTROL Indian's seat height is as much as two inches lower than comparable models. So they're easier to mount and hold steady when stopped.

3. BETTER TRACTION Indian tires are 15% wider than comparable models. This provides better traction and acceleration.

4. COMFORT Only Indians are equipped with adjustable foot pegs. The right distance between pegs and levers can be a big factor in both comfort and safety.

5. MORE PERFORMANCE Indian's engines deliver up to 25% more horsepower than some comparable models. That's power when it counts to get you out of tough situations.

6. SAFER BRAKING Only Indian has a full floating brake, a feature found only in specialty bikes. So with Indian there's no chance of rear-brake lock-up and hopping even in the roughest terrain.

7. LONGER LIFE Indian has built-in durability. Only Indian has Timkin Roller bearings in the steering crown — guaranteed for the life of the motorcycle.

8. SERVICE AND PARTS There are now over 500 Indian Dealers throughout the United States and Canada to serve your needs.
