Dear Indian Dealer:

In regards to any Service Bulletins received from The Indian Motorcycle Company, the Service Bulletins do not necessarily mean that the particular change or modification is necessary for all stock bikes in your inventory. For instance, Service Bulletin #129 pertains only to a racing modification of a 70 c.c. cylinder. This modification is not intended to be done on a normal bike in your stock. This particular Service Bulletin is only recommended for your customers that are interested in racing.

Some Service Bulletins deal with specific problems that should be corrected prior to the delivery of the motorcycles to your customers. These Service Bulletins state this fact.

It is not necessary to perform all of the changes that a Service Bulletin suggests unless you have complaints from your customers.
