## REMOVING BROWN SHIPPING OIL PLUG

On all model engines in the Indian line (P450, P475, P675, and 125) the motorcycles are shipped with a BROWN shipping oil plug in the transmission. This plug is for shipping purposes only. It is not vented. This plug MUST be removed from the engine prior to delivery to your customers. This plug should be replaced with the BLACK VENTED plug provided with each motorcycle. The part number of the black vented oil plug is 23001080. The gasket for this plug is part number 23001081.
